AMENDMENT ENTRY

Amendment of 10/20/09 has been entered. Claims 5, 8-16 and 18 are pending and are under consideration.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The amendment of 10/20/09 has inserted the phrase "and host cell residues are removed in the first step" as a conclusion to each of claims 5 and 18. This feature would not have been predictable from the teachings of Belew et al. Belew et al teach that their multi-modal resins would adsorb all kinds of peptides, polypeptides, nucleic acids, carbohydrates, lipids, and other "bio-organic" structures. From these teachings, one of skill would have expected that such components of any host cells would adsorb to the resins, along with the IgG produced by the host cells. The teachings of the secondary reference of Prior et al do not pertain to multi-modal resins; thus Prior et al teach nothing that would lead one to consider that the multi-modal resins of Belew et al could be used to separate components of host cells from IgG.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
